The brother was thrown out in such a position as to place his feet upor the track, and had the presence of mind however, to instantly draw his feet up out of harms way. Miss Taft is a grand daughter of Rev. Mr. Taylor.

We learn since the above was in type, that Miss Tatt died on Wednesday r ght last.

SINGULAR CIRCUMSTANCE.—Not long since, Mrs. Kendrick, wife of James Q. Kendrick, of Tazewell county, after an illness of some length of time, presented every external evidence of chath, and preparations were made for her interment .-About ten hours after her apparent decease. same friends, who were employed in making a shroud, were amazed to hear her ask in a faint coice, for food. It seems that she had a catalentic lit, which fortunately pass ed off in season to prevent the horrors of premature burial. She was, however, very low at last accounts.-Richmond Whig, Nov. 7.

LITERARY AND PERSONAL MATTER Charles Reade, the author of " Peg. We believe that Mrs. Harriet Beecher Slowe intends to make Hartford her home at no very distant day, and that the spot for her house has already been chosen in advance. It is one of the pleasantest parts . I the city. The time fixed upon for her removal here we have not learned.

Mrs. Elizabeth Barrett Browning is about to favor the public with a new volume of her poetry-a romance in verse. This time Mrs. Browning and her hu-band have both selected an American publisher, and declared that he alone shall ever being out their works with their consent. But another person in the "trade" does not care a farthing for the wishes of these impertinent people, and threatens to reprint the first copy of the new book he can get hold

Mrs. Lydia M. Child, a woman of uncommon genius, and an author whose refined and quick intelligence and inpate spirituality áre well indicated in her " Philothen " and lor charming " Letters from New York," has in press an elaborate work on the origin and growth of religious ideas and institutions. It is said that "it will not increase the respect in which she is held by those old fashioned people who believe in the Apostles' Creed or the Thirty, nine Articles." By that, we suppose, it is intended to convey the idea that Mrs. C. chaoses to do her own thinking on the subjects treated of-

Two volumes of Mr. Prescott's " History of the Reign of Philip the Second " will appear about the end of November. Though it may not be the most popular, it will undoubtedly prove the most able of this great historian's works.---

MELANCHOLY AFFAIR.-The following occurred at the Lunatic Asylum in New Branswick last Tuesday :--

A patient named John E. Clarke, who has been an inmate of the asylum for up wards of three years and a half, and whoduring mo t of this time, has been quite docile, and was employed in various ways about the establishment, frequently attending on the family of Dr. Waddell, in a fit of a impulsive insanity," seized an axe, and before any marm could be given, sir ck down two of the attendants, and by ren ated blows manufed them in a stmanner, causing instant death. Dr. Waddell was immediately actracted to the spot, but was unable to arrest the lunatic, who also made an attempt to take his life, but the coolness exhibited by the doctor, and his presence of mind in placing others beyond the reach of the unfortunate man, prevented any further sacrifice of life, Clarke then made off, and was arrested by two of the attendants of the asylum some miles distant, after un obstinate resistance-The names of the murdered men were Wm. Carroll and Barry Mills. The former was acarly 70 years of age, and had been an attendant of the Asylum for 14 years. The latter was about 42 years of age, and had been employed in the institution for 4 years. He haves a wife and to ir children.

ROBBERT. - John Castor, a colored waiter on board the steamer Bay State, was yesterday arrested, charged with having entered the state room of Mr. James Stetson, of the Astor House, who was a passenger on the vessel, and robbed it of a gold watch and chain, valued at \$175. He confessed his guilt, and stated that he had effected an entrance with a false key, and after getting possession of the watch, had sold it for \$20 .- N. Y. Mirro.

... I had not one moment to live.

A Tevening Stery .- The Editor of the New York News in passing this city lately on his re um to the morropolis, was at the deput of the Hudson River Railroad, Eart-All any, made acquainted with a truly vessel, who so surprised at his scronity and pitable, though not untrequent circum stance. Says the Edutor :- Standing at the depet, we saw a crowd of people surrounding five small children one of whom was held by the hand a man evidently in the humble walks of life. He was said and down-cast, and his situation had evidently excited the sympathy of the persons around. The crewd was one of sympathy and not of curiosity. The eldest was a girl of about thirteen summers. She held in her hands a cage containing her favorite bird, and in the bitterness of early griet she was weeping, the only remaining thing that was peculiar about the crowd, was a rough and narrow box which might contain the remains of a person-operhaps, the mother of those five children.

The story was soon told. The man had been a resident of Poughkeepsie. 🙄 better his condition, he concluded to move west. He had sold his little estate, and with his wife and five on Hyen had started on his journey; He left his home on the morning of Friday of last week. He had proceeded west as far as Omedi. Here the train balted, and the wife took out of the cars her youngest child. But before she rould get on to the train the cars had started. The bushand jumped off and saved the child and placed him on the train-The mother attempted to follow. She was hit on the head by her foot, drawn under the wheel, was nearly severed from her body. In a few hours she died. On Saturday the little company turned their faces back to Penghkeepsie with the dead wife and mother. They had already reached Albany, and were, alone, and in grief, waiting for the train down to take the dead for its burial to that sweet home she had left in health and hope only twenty-four hours before. The group were among the lowly in life. But who can incasure their grief ?--Albuny Argus.

A LADY WHO WAS PRESENT AT THE BATTLE OF SARATOGA .- Mrs. Margaret Martin, who is at present stopping at the residence of her grandson, in this city, in 98 1-2 years of age. She is one of the few remarkable women of the revolution, who took part in a memorable occurrence of the strugglefof American Independence. Her husband Gilbert Martin, was a sermeant in the army of Gates, and was engaged in the battle of Saratoga, Mrs. Martin, then a very young woman, was on the field during both struggles constituting this battle, and terminating in the defeat of the splendid array which Burg you had transported with such immense labor and expense from Canada, confidently anticipating that he the patriots, and secure Sir Henry Clinton in possession of the Southern line of de-

Mrs. Martin represents the struggle as most terrific. She says that toward evening, when Burgoyne, maddened by the consciousness that all his splendid schemes were about to be defeated, directed his whole reserve and cavalry force upon the feeble army of the pairlets, the contestants stood within hall musket range of each other, and poured in their deadly volleys, while whote illes on either side fell in their tracks, and still neither gave one inch,

Towards evening, Mr. Martin, was wounded in the shoulder, and while his wife was in the act of affixing a bandage she herself was wounded in the hand. She says, " Gilbert sprang up like a chaled lion-Peggy,' said he, 'I'd go and teach those cowardly dogs better manners than to shoot at a woman, and I say him no more till the light was over."

Of such material were the men and wonen of the Revolution.

We can readily imagine that the field of Saratoga was a strange place for those of the "softer sex." Mrs. Martin, however, has evidently been a woman of uncommon energy of character. Her frame still exhibits evidences of strongth, and her eye sparkles as she recounts the deeds of that glorious day, or speaks of that coward Gates, who staid sate and sound all the day in his tent, and cared not for the men who were failing live sheaves in the harvest."

One by one, the survivors and landmarks of the Revolution are lading away Troy Whig.

THANKSCIVING .- The Governor of lifteen States I are appointed Thursday, the 29th instant, as a day of Thanksgiving. In several States it occurs on the 22d.

A BEAUTIFUL INCIDENT .- A naval officer being at sea in a dreadful storm, his wife was sitting in the cubin near blin, and filled with alarm for the safety of the composure, that she oried out :

"My dear are you not afmil? How is it possible you can be so calm in such a

dreadful storm?" He rose from his clinit, dashed it to the deck drew his sword, and pointing it at the breast of his wife, exclaimed ---

"Are you afraid?"

She immediately answer if "No." "Why?" said the officer.)

"Because," rejoined the wite, "I know this sword is in the hands of my husband, and he loves me too well to hurt me."

"Then" said he, "I know whom I believe and that he who holds the wind in his fist, and the waters in hollow of his hand, is my Father,"

MERGY OLD AGE .- Cornaro was merry at ninery-five; studied Greek at eighty; Charles Kemble did the same, or rather "brushed up" his old Greek when he was nearly as old as Cato; Cibber, when still older, merrily replied to one who declared that he looked well, that "eighty four it was well that he looked at all ;" and there was the Countess of Designed, who was, perhaps, the merriest of all, for she

The Lightning Conductors on the plan of J.

Prof. of Chem. in the Univ. of Louisville:

This will certify that I have examined the Lightning Rode, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as conerructed in conformity to the general laws of electric fluid; and the Gilded Coppor Brunched Points, as promising, from the results of several tests to which they were submuted, to resist for years the action of those atmospheric causes most likely to corrode them.
